---

Thanks Alex:

Due to the fact that we got the air samplers out so late in the day on Thursday, we will pull the first samples Saturday morning and get them to you as a group before noon. Are you aware if there's a Fedex pickup on Saturday, Sunday or the Fourth of July?

We will supply one duplicate sample (from a duplicate air sampler) and an unused filter to use as a background sample.

We may end up sending more samples on Tuesday, the 5th of July.

Thanks.

**Subject:** Las Conchas Fire Sample Information

---

Gregg,  
I am including the MDCs that we sent to the lab for the radionuclide analytical.  
They are included in the body of the e-mail below.

Nuclide pCi/m3  
Am-241 1.2E-03

Cs-137 2.9E+00  
Pu-239/Pu-240 9.4E-04  
Sr-90 7.0E-01  
U-234 1.2E-02  
U-235 1.3E-02  
U-238 1.4E-02

The samples will be shipped to the Eberline Laboratories in Oak Ridge, TN. We will be screening all samples here at the EOC using a 2241-2 with pancake probe for gross counts prior to sending via Fedex.

Please coordinate with Heth Parnell at 972-977-8683

[heth.parnell@westonsolutions.com](mailto:heth.parnell@westonsolutions.com)

or David McCarty (214) 926-8475

[david.mccarty@westonsolutions.com](mailto:david.mccarty@westonsolutions.com)

for the pick up of the samples and the sampling information sheets.

Please let me know if you have any questions. Thank you

**Alex J. Byrum**
